OCTOBER, 1916.

No. 7.

A Descriptive List of Die Varieties of Early United States Silver Coins.

BY WAYTE RAYMOND.

DOLLARS (Continued).

1799.

OBVERSES.

- 1.—Last 9 over an 8. Stars close together. With reverses A, B, C.
- 2.—Perfect date, as are all that follow. Letters in LIBERTY close together. Stars further apart. Star touches bust. Die cracked through date. First 9 in date leans toward last 9. With reverses C, K, M.
- 3.—Word LIBERTY closely spaced, stars evenly spaced on either side; date even and well centered between bust and border. With reverses D, E, F, I, J, O.
- 4.—Similar but 1 further from curl. With reverse G.
- 5.—Similar, but stars larger. LIBERTY wider spaced. With reverses H, J.
- 6.—Last 9 close to bust. First star on right nearly touches bust. With reverses L, R.
- 7.—Similar to 5. LIBERTY closer. Star closer to bust and more distant, from L. With reverse N.
- 8.—Similar to 6. Star further from bust and stars on either side of LIBERTY more distant. With reverses B, P (perfect and cracked dies.)
- 9.—Similar to 5. Last 9 is nearer bust. Star closer to Y in LIBERTY. With reverse L.

- 10.—There are five stars before face and eight behind. With reverse N.

It will be noted from the preceding descriptions that the obverse die varieties of this date are more or less minute; it is difficult to attribute any one coin without having several others.

REVERSES.

- A.—Leaf points to center of I in AMERICA; A in same word touches third and fourth feather in eagle's tail; star touches lower portion of eagle's beak. With obverse 1.
- B.—Leaf points to left part of I; A touches fourth feather only; star extends through beak into eagle's mouth. Die break at D in UNITED. With obverse 1, 8.
- C.—Similar to preceding but the points of two additional stars project from clouds above eagle, making fifteen stars instead of thirteen. With obverses 1, 2.
- D.—All stars in top row touch clouds; leaf points toward left part of I; A touches third feather; star touches lower portion of eagle's beak. With obverse 3.
- E.—Stars touch clouds as on preceding; A in STATES touches also; leaf points to center of I; A touches third and fourth feathers; star touches lower part of beak; AME in AMERICA connected at base. With obverse 3.
- F.—Stars touch clouds as on preceding; leaf points to centre of I; A touches third feather only; star touches upper part of beak; AME not connected. With obverse 3.
- G.—AME connected at base; A in AMERICA does not touch wing as on preceding. With obverse 4.
- H.—Leaf points to right part of I; A near third feather; AM connected at base; star touches lower part of beak. Long arrows. With obverse 5.
- I.—Eagle's claw about touches final A in AMERICA; leaf points to left part of I; long arrows as on preceding. With obverse 3.
- J.—Without berries on olive branch. With obverses 3, 5.
- K.—Leaf points to center of I; A touches fourth feather; star does not touch beak. With obverse 2.
- L.—Upper right and left stars touch clouds; leaf points to center of I; first A in AMERICA does not quite touch wing; star touches lower part of beak; AM connected. With obverses 6, 9.
- M.—Same as reverse O of 1798, die break from branch to edge. With obverse 2.
- N.—Leaf points to left part of I; star touches lower part of beak; U in UNITED is defective. With obverse 7, 10.
- O.—First A in AMERICA does not touch wing; leaf points to left part of I; star touches upper part of beak and is close to lower part; short stem in claw. With obverse 3.
- P.—Similar to D; A does not touch wing; star touches lower part of beak; die break between E and D through eagle's wing. With obverse 6, 8. Also comes with perfect die.

(END OF OHIO.)

A Rare Mexican Railway Medal.

The above medal commemorates the inauguration of the first Mexican railroad, from the City of Mexico to Vera Cruz. The obverse shows an interesting representation of a locomotive traveling to the right, the inscription reading PRIVILEGIO DE LOS SRES. MOSSO HERMANOS & CO. (evidently the firm of contractors,) and the date 1855. The reverse reads PRIMER CAMINO DE FIERRO DE LA CAPITAL DE LA REPUBLICA HACIA EL GOLFO DE MEXICO COMENSADO EN EL MES DE JULIO SIENDO PRESIDENTE S. A. S. EL GRAL. D. A. L. DE SANTA ANNA MINISTRO DE FOMENTO EL E. S. D. JOAQUIN VELASQUEZ DE LEON Y GOBERNADOR DEL DISTRITO EL E. S. D. R. DIAZ DE LA VEGA. A liberal translation is "Concession of Mosso Brothers & Co. 1855. First railroad from the capital to the Gulf of Mexico, commenced in the month of July; being President of the Republic His Most Serene Highness General Antonio Lopez de Santa Anna; Minister of Fomentation, Excellency Senor Don Joaquin Velasquez of Leon, and Governor of the District (Federal District of Mexico, containing the capital, and being something like the District of Columbia) Excellency Senor Don R. Diaz de la Vega." It is an interesting fact that the inauguration of Mexico's first railroad took place in the month preceding that in which Santa Anna departed from Mexico, never again to take a prominent part in his country's public life. The medal is struck in copper, and has a diameter of 46mm. Moyaux lists it under No. 63.

Canadian Medal Period of Intercolonial Wars.

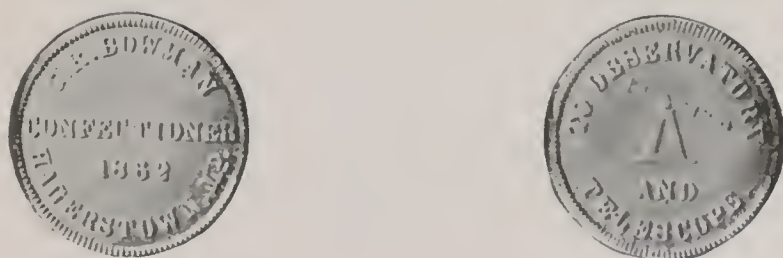

1755. Obverse—*SALVS IN FLVCTIBVS* (Safety at sea.) Mercury standing on the shore listening; beyond, in the ocean, are two frigates, one with ensign of Ireland and the other with that of France.

Reverse—*SED MOTOS PRAESTAT COMPONERE FLVCTVS* (But he has power to soothe the troubled waves.) The seashore. An Indian warrior standing left with bow and arrow, his foot on an alligator; female seated to right on a sea horse, she holds a Temple of Fame and sceptre.

Divided between obverse and reverse exergues—*STATVS RERVVM | SVB EXITVM ANNI | MDCCLV*. (The condition of affairs at the close of the year 1755.) Silver. 34mm. Bets 392. Ed. Frossard in his monograph on Franco-American jetons (New York, 1899) also illustrates and describes this medal (No. 52).

Mr. Geo. M. Parsons in *American Journal of Numismatics* (Vol. XXIV, No. 7) considers that the female figure represents Britannia and the Indian and alligator the French Colonies in America. "There was safety at sea," which was ruled by Britain, but the Indian (France) "was ready to adjust the arrow to the bow." He considers the medal "an invocation for peace, in the threatening state of affairs between the two nations."

An Interesting Tradesman's Card of Maryland.

The piece herewith shown is undoubtedly one of the most interesting and rare store cards that are associated with Maryland. So far as known this is the only piece of the kind that was issued at Hagerstown, Maryland. The obverse reads: G. H. BOWMAN, CONFECTIONER, HAGERSTOWN, MD., with the date "1862" in the centre of the field. On the reverse reads TO OBSERVATORY AND TELESCOPE with the figure of a mounted telescope in the centre of the field. The metal is a brass composition, and the size is 22mm. Frank G. Duffield, in his list of "The Merchants' Cards and Tokens of Baltimore," published in *The Numismatist* in 1907, Pages 65-87, lists this token under No. 14. Considering the date of 1862, this piece might well be included in the civil war tradesmen's tokens, and represents one of the very few pieces of this character that were issued in Maryland during that period. It would be interesting to know more details about this card, and we would welcome any information.

(TO BE CONTINUED.)

William Penn Medal.

(1755). Obverse—WILLIAM PENN. Bust of Penn to r. Below, B. 1644 D. 1718. Before bust, L. P. (Lewis Pingo, engraver at the Royal Mint in London).

Reverse—BY DEEDS OF PEACE. A Quaker advancing to right clasping hands with an Indian. In exergue, PENNSYLVANIA SETTLED 1681. Silver. 41 mm. No. 531 in "American Colonial History Illustrated by Contemporary Medals" by C. Wyllys Betts.

We think it quite probable that the above was used as an Indian Peace Medal. It is very rare.

The Birch Cent.

A noteworthy feature of the recent annual convention of the American Numismatic Association at Baltimore was the exhibition of two varieties of the celebrated Birch cent, which is one of the greatest rarities in the entire list of American coins. One of these was shown in the exhibit made by Former President Judson Brenner and the other by Robert Bird, of Canton, Mass. Both specimens were in a very fine state of preservation. The specimen shown by Mr. Bird had a plain edge, and therefore was the variety listed under No. 9 of the "United States Pattern and Experimental Pieces," while that shown by Mr. Brenner was No. 10 of the above-named list, which shows on the edge the words TO BE ESTEEMED BE USEFUL, with a star before the word BE and after USEFUL. There is only one other variety known, with obverse and reverse designs the same as the two foregoing pieces, the difference being in the inscription in the edge, the same as the foregoing, but only one star, this being after the word USEFUL. On each side of the star is a small leaf. This is No. 11 in the pattern book. All of the varieties are of extreme rarity. It is not known definitely who is the possessor of the third variety, but it is thought to be in a well-known New York collection. The Parmelee collection contained both Nos. 9 and 10, which were sold respectively for \$75 and \$85. There was a specimen with

the lettered edge sold in the Bushnell sale in 1882, but it is not known whether it was No. 10 or 11. This specimen brought \$290. The catalogue states that Mr. Appleton of Boston had a specimen. It is not known if this specimen went to the Massachusetts Historical Society with the other Colonial coins of Mr. Appleton, as the exact contents of the latter's legacy are not known or available.

A companion piece of the above-mentioned Birch cent is the variety in pewter discovered by Henry Chapman of Philadelphia in the collection of George J. Bascom of New York City in 1915, which brought \$1040 at auction. The latter piece was of a design greatly similar to the Birch cent, and without doubt was made by the same die cutter. It differed in several particulars from the former, however. First it did not show the word BIRCH on the truncation of the bust. The obverse design was similar to the Birch cent, but the reverse was radically different. Around the border was "G * W. Pt." in the position where usually is "1-100." Around the words "ONE CENT" inclosed by the wreath was a circle of pearls, with an ornament above the word "ONE" and another below "CENT." The wreath was different from that on the Birch cent. The metal was pewter. This piece represented a very important and interesting addition to the early United States pattern pieces. All of the portrait designs on these pieces are thought to be modeled from that of Martha Washington.

Another Variety of Lesher Dollar.

Through the courtesy of Judson Brenner of Chicago, we can show this month another variety of the well-known series of Lesher Referendum Dollars. This same general design has been shown before, the variation being the name of Boyd Park, of Denver, Colo., as the issuer. Mr. Brenner now has, we believe, nearly all the varieties of the series, which no doubt one of these days will be much more appreciated than it is at the present time, owing chiefly to the comparatively recent date of issue.

Valuable Numismatic Guides

N O T I C E .

I intend to make a specialty of the purchase and sale of the coins and medals of all the Hispanic-American countries—Mexico, Central America, South America, Brazil, the islands, &c., and now have on hand many fine and interesting specimens in various metals.

Collectors who are interested in any of the above-mentioned series will do well to keep in communication with me and inform me of the particular specimens which they seek.

EDGAR H. ADAMS,
5056 Broadway, New York, N. Y.
Tel. 8831 St. Nicholas.

FOR SALE

I have in stock very desirable specimens of

Private Gold Coins
Pattern and Experimental Pieces
Hard Times Tokens
United States Gold and Silver Coins
Coins and Medals of Hispanic America

I will be glad to have collectors send me a list of their wants, especially of the rarities.

EDGAR H. ADAMS
5056 Broadway New York, N. Y.

F O R S A L E

An extraordinarily fine and complete collection of the Coins of

**MEXICO,
 NICARAGUA
 COLOMBIA,
 VENEZUELA,
 ARGENTINA,
 JAMAICA,
 GUATEMALA,
 SAN SALVADOR,
 BOLIVIA,
 PERU,
 URUGUAY,
 GUIANA,**

**HONDURAS,
 CUBA,
 ECUADOR,
 CHILE,
 BRAZIL,
 COSTA RICA,
 HAITI,
 SANTO DOMINGO,
 PUERTO RICO,
 PARAGUAY,
 DANISH WEST
 INDIES,**

embracing an almost complete metallic history of every country mentioned since the beginning of its first coinage. The collection includes numerous rare and interesting medals, an unusually fine series of cut pieces used as a circulating medium in the West Indian islands; also many interesting tradesmen's tokens, and a most complete series of the hacienda tokens of Mexico. There are over three thousand silver coins; more than fifty gold coins, and an unusually complete series of the copper coins of Hispanic-America.

Any one interested in a collection of this character should immediately communicate with

EDGAR H. ADAMS

 Tel. 8831 St. Nicholas.

PUBLICATION IN PREPARATION.

Store Cards of the United States Issued Prior to the Civil War.

A full description of this interesting series, embracing about 500 tokens. Includes all those cards issued during the Hard Times period and many others struck at the same time (1833-44) which Mr. Low did not list in his work on account of the absence of date.

The arrangement is by states and each token is given a separate number; where there are issues in differing metals each metal has a number.

We invite subscriptions to this work at once and the character of the publication depends on the number received. If we secure a sufficient number of subscriptions to warrant the expense we will use about 50 to 75 handsome half tone illustrations in the text, if not, the work will have only a few cuts of the rarest pieces.

Prices Will Be As Follows:

Extra Illustrated Edition, paper cover	\$1.00
Blue cloth.....	1.50
Edition with about 12 illustrations, paper cover...	.50
Blue cloth.....	1.00
